

Hemsworth and District Clay Pigeon Shooting Club

COVID 19 – Re-opening rules and guidelines

The following rules/guidelines have been put into place for the safety of everyone and the club reserves the right to ask shooters to leave the shooting ground due to non-compliance.

To ensure that we can all shoot safely we will now **only be open to shooters with their own guns** until further notice - non shooters are no longer able to observe.

Safely

- Social distancing will be required at all times unless shooting with one other member of your own household.
- Face masks and gloves (shooting gloves are acceptable) must be worn at all times – without exception.
- Hand gel and wipes will be available and provided by the club, but we encourage shooters to bring their own supplies.
- We ask all shooters to bring the exact money and we will operate a self-service approach to paying – **we accept this is a cash sport, but we want to be cautious when handling money.**

Gun handling/coaching

- The club will no longer provide formal coaching and the use of the club gun is no longer available.
- There must be no sharing of guns except with a member of your own household.

The committee accepts that we are going through a difficult period and that getting used to these new rules will take time, but we hope that this does not stop you enjoying our sport.

Many thanks

Hemsworth and District Clay Pigeon Shooting Club Committee
